

## Progress of the Syllabus Review

Following the public consultation and detailed consideration of the suggestions and comments made, a revised syllabus draft will be initially shared with those who contributed. The Examinations Standards Committee continues to consider further relevant input in pursuit of the set objectives. The matured draft syllabus will be submitted to Ofcom in due course, after which the three approved syllabuses (Foundation, Intermediate and Full) will be published in early 2018 for implementation in early 2019
